

POLI-FLEX

soft & elastic

POLI-FLEX is a high-quality polyurethane film with matt, reflection-free surface laminated with a thermally activated adhesive.

POLI-FLEX excels due to the excellent opacity and elasticity of the carrier film and offers a comfortable textile touch.

POLI-FLEX is suitable for transfer to textiles like cotton, mixtures of polyester/cotton and polyester/acrylic. POLI-FLEX can be used for lettering on T-shirts, sport & leisure wear, sport bags and promotional articles such as flags and banners.
